

A TROLL LEARNING CENTER

THE SKELETAL & MUSCULAR SYSTEMS is the perfect way to introduce students to the bones and muscles of the human body, and to help them understand how the muscular and skeletal systems work.

Informative tutorials help familiarize students with bones, cartilage, ligaments, joints, and the three kinds of muscles in the body. Three separate learning games provide a fun way for students to reinforce learning and put their new skills to use.

THIS LEARNING CENTER CONTAINS:

- a MICRO-SOFTWARE program disk
- a User's Guide
